

Night Life

Thin Lizzy

They say that the night life
They say, it ain't no good life
But it's my life

I've been a gambler
I've been a thief
And most of my good friends
They don't hold with my belief
They say that the night life
They say it ain't no good life

Oh, but buy
You know that it's my life
And if you've had troubles
If you've felt them woes
I don't have to tell you

How this whole world is so low
Hey now baby
It can drive you crazy
Oh, but baby
Baby, the night life's for me
Just one more time
I'll hit the road
And I want to thank you
I want to thank the Lord
For that old night life
Some say, it ain't no good life
But baby, baby
There ain't nothing like this night life
