## Soulfly

No  
No follow, no trends  
We know you are too fake  
The song remains insane  
And we are here to stay  
Against all odds we go  
Follow our hearts and soul  
We'll take you to the unknown  
Our message to the worldLast of the Mohicans  
Last of the MohicansOur tribe spreads everywhere  
Sell out I say, fuck that  
You better show respect  
'Cause we're not like the rest  
The rhythm and the rage  
The blood spills on the stage  
Oh God, give me the strength  
And guide us till the endLast of the Mohicans  
Last of the MohicansMohicans
