

# Makin' Babies

## Reverend and the Makers

If you wanna know how to get there  
(I know the way, I know the way, I know the way)  
Like the back of my hand Everyone I know is making babies

So what about us?

What about us?

Everyone I know is making love, sweet love

What about us?

What about us?

If you wanna surf the horizon  
(Run away, I'll run away, I'll run away)  
And we can leave here tonight Everyone I know is making babies

So what about us?

What about us?

Everyone I know is making love, sweet love

What about us?

What about us?

Everyone I know is making babies

So what about us?

What about us?

Everyone I know is making love, sweet love

What about us?

What about us?
