Don't Be Silly

Original Sin

I gotta stop and think how we met
I wanna stop and feel your mouth, kiss your lips
'Cuz this feels so good stillThere's just too much of you I couldn't live without
There's so much of you that I need
So when you tell me that you're nervous
Please don't worry 'bout a thing, don't be sillyFor the rest of my life it's you
(It's you)
You don't have to worry 'bout a thing
No, don't be sillyI will never stop
(Don't be silly)
I will never stop
(No, no, no, don't be silly)
I will never stop
Never stop, never stop, never stopI wake up every morning
(See you there)
Come home every evening
(See you there)
Morning, day and evening baby, see you thereWilly nilly lovers moonbeams way above
I will never find another that I could fall in love with, no way
Don't you worry, don't be nervous baby, now don't be sillyGirl, you're all that I need, it's true
I could never find another, no
So, don't be sillyI will never stop
(I tell you, don't be silly)
I will never stop, I will never stop
(Meet you every minute)
Never stop, never stop, never stop
(Never, never stop loving you)I'll never stop loving you
(Don't be nervous, don't you worry 'bout a thing, please)
(Don't be silly)
I will never stop
(No, don't be silly)
I will never stopI will never stop
(Each an' every minute, baby)
Never stop, never stop, never stop
(Give it to me)
(Give it to me)
Never stop, never stop, never stop
(Don't be silly, don't be silly, please)
