

Fear the Voices

Alice In Chains

Put our heads together
Because a signature could change our future
For some wrote you a letter
Begging you to reconsider, yeah Yeah
Yeah yea Put our heads together
Fear the voices you hear today
If you still have choices we'll blow you away So they put number
On the television Mr. Gardner, oh yeah
A messed up generation put the pressure on you
You're a coward Yeah
Yea, hey A messed up generation
Fear the voices you hear today
If you still have choices we'll blow you away We can see right through you, we're awake
Send your men and we are all awake
Awake, awake, awake, awake
Wake, awake, awake, awake Fear the voices you hear today
If you still have choices we'll blow you away
Fear the voices, fear the voices, fear the voices, fear the voices
