Say Something

Traci Lords

It's the summer of innocence for me
I can see it all before meHere it comes now
It means nothing
Just say something
Just say somethingHow did you know I am only here among us
Say something
How did you know I am only here among us
Say something
How did you know I am only here among us
Say somethingIt's the summer of shame for me
I can see the fall before meAll before me
All before meHow did you know I am only here among us
Say something
How did you know I am only here among us
Say something
How did you know I am only here among us
Say something
How did you know I am only here among us
Say something
