Changes

Yes

I'm moving through some changes I'll never be the same Something you did touched me There's no one else to blameThe love we had has fallen The love we used to share We've given up pretending As if you didn't careChange changing places Root yourself to the ground Capitalize on this good fortune One word can bring you round ChangesI look into the mirror I see no happiness All the warmth I gave you Has turned to emptinessThe love we had has fallen The love we used to share You've left me here believing In love that wasn't there Change changing places Root yourself to the ground Word to the wise, well you get what's coming One word can bring you round ChangesBut when I look into your eyes and try to find out how There's no way to save it now and everything I feelChanges Keep looking for Changes ChangesFor some reason you're questioning why I always believe it gets better One difference between you and I Your heart is inside your headOne word from you, one word from me A clear design on your liberty Who could believe when love has gone How we move on like everyoneOnly such fools Only such jealous hearts Only through love changes comeChange changing places Root yourself to the ground Capitalize on this good fortune One word can bring you round

ChangesOne road to loneliness
It's always the same
One road to happiness

It's calling your nameChange changing places
Changes
Root yourself to the ground
Capitalize on this good fortune
One word can bring you round
ChangesChange changing places
Changes
Root yourself to the ground
Word to the wise, well you get what's coming
One word, one word can bring you round
Changes
