Strong

After Forever

I see your pain I see it grow
slowly inside you
You cannot control it
The hurting's ruthless, you cannot winI see every smile you fake
Strong emotion, strong devotion to ignore the pain
To stand strongDay after day, to be there for us, always
To pretend there's nothing wrong
How you feel or how it feels
No words describe it
Your body feels like a stranger
We cannot stop it, we cannot winI see every smile you fake
Strong emotion, strong devotion to ignore the pain
To stand strongI see every smile you fake
Strong emotion, strong devotion to ignore the pain
to stand strongEvery painful day, I'll be there for you, always
And together we will stand strong
