

# Someone I'll always love

## TENTEN

1

While I'm looking through the rainbow, all my thoughts are in you. Wond'ring where you are, wishing upon a star. Be right here, never so far.

2

I long to feel the warmth of your embrace. And see the smile in face. Things that I remember, I love the words you whisper. This one wish can come true.

Chorus:

You taught me how to love, you taught me how to care, you taught me how to live and give the best that I can share. You gave me all the smiles to brighten up my nights. Yes, you are someone I'll always love.

(Repeat 2 and chorus)

Adlib:

How I long to bring back memories of you. Your voice is the sunshine that will guide me through. How I wish, I really wish, that you are here with me. Your love and care, I remember through all eternity.

(Repeat Chorus)

Coda:

Yes, you are someone... Yes, you are someone... Yes, you are someone I'll always love...
