

Story O' my LF

Shaka Ponk

This is the story'O my life
Trying to find'O camino
Turning el todo upside down
Until da final tornado
Making every shit wrong seem'right
And being acting liked surprised
When by the End we realize
We go an ego caminoHeres' my life story and it's far from fiction
One part love and two parts addiction
Mix it with a little bit of fun for details
Things are goin down ain't no time to waste so
I'm a hit the trail till I get those pesos
Wait tho-I still can't forget my hombres
Always we stay soakin' up them sunrays, eight
More trails we blaze we some happy pilgrims
You coppin' attitudes then it's time to chill son
We're comin home it's a big fiesta
Wear your best threads and your ears 'R ringing
That's about now if you heard me, right-hold tight 'causeThis is the story'O my life
Trying to find'O camino
Turning el todo upside down
Until da final tornado
Making every shit wrong seem'right
And being acting liked surprised
When by the end we realize
We go an ego caminoThe story o'my life
The story o'my lifeThis is da final global-phenomen 'hom'
My friends and I we made it minimal
We loco people are running out of control
We criminal animal, illegal-illegalThe story o'my lifeLivin' out my life like a twisted nivel
Juggling the times yo it's hard to toggle
Between giving up clean living I'm relieved
When I'm just being what I'm made out to be four
And that's me ain't no mask or costume
And that's good enough to shine I presume
So make room 'cause I'm here with my friends
With what little time left Imma step
To the beat of a drum that could snap ya neck
Let's trek to the end of the world and back

Right now if you down ain't no time to pack twelve
Got it all figured out we could leave tonight
Take it slow hitchhiker we don't need no flight
With a pen and a pad Yo I think I'll write hold tigh 'cause This is the story 'O my life
Trying to find 'O camino
Turning el todo upside down
Until da final tornado
Making every shit wrong seem 'right
And being acting liked surprised
When by the end we realize
We go an ego camino This is da final global-phenomen 'hom'
My friends and I we made it minimal
We loco people are running out of control
We criminal animal, illegal-illegal The story o' my life
The story o' my life
