Yeah, I got some shit up on mind (ugh)
I know you busy, I appreciate your time
I feel I'm helping everybody with they problems but my own shit (huh)
I guess I gotta deal with that alone
But I ain't trippin' no, that's just part of being the man
And I ain't bother lose faith or even question his plan
But now I'm lost in these drugs, ridin' round bass hittin'
Hoping I ain't getting judged by how I'm livin'
I ain't never seen a prison plus a nigga still breathing
I lost a couple pat-nas, close my eyes and I see 'em
I'm dealing with my demons just like everybody else
And I done became numb to all the shit I ever felt
And it's fuckin' up my health I'm knowing I should do better
Staring at this puzzle tryna put it all together
And my attitude's whatever know I gotta be a soldier
I'm caught up in this war still keeping my composure

(Keeping my composure)
Keeping my composure
Keeping my composure
(Keeping my composure)
Keeping my composure
Keeping my composure
(Keeping my composure)
Keeping my composure
Keeping my composure

(Keeping my composure)

Keeping my composure

Keeping my composure

Ain't no question about my ambition (ugh)

Ain't for a lil boy to see a man's vision

My nigga asked me for advice I told him pray more

But be careful cause he'll give ya what you pray for

Had a dream of sitting in something forming on buttons (huh)

Dead homie with me but living was our discussion

He told me stay focused, took a pull of the swisher

And proceeded with "they can't fuck wich' ya"

Just nodded while I listen, he told me I made everybody proud

"Stay true, that's what everything's about, not following that crowd

You gotta give 'em something to respect"

I woke up laying in a cold sweat

Felt so real, felt it in my soul

I promise I ain't deviatin' gonna reach the goal

I plan to get a gain the way the OG's showed us

I'm smoking maintain still keeping my composure (yeah)

(Keeping my composure)

Keeping my composure

Keeping my composure

(Keeping my composure)

Keeping my composure

Keeping my composure

(Keeping my composure)

Keeping my composure

Keeping my composure

(Keeping my composure)
