Smile Upon Me

Passion Pit

Everything's always better
Whenever you are under dressed
I wanted to tell you then
To try the bird's nestAnd it's truth, you know
It's always the issue
And when it starts getting blurry
One's never better than twoThere's a place in this world
Where people like me are found by people like you
So find a place as this forever divineOh yeah, you're the best damn friend that I'll ever have
You'll always smile upon me when the season's bad
You'll always make me feel best even when I'm blue
You'll always smile upon me and I'll smile upon you tooI don't know what are you now
Since everything's changed
If I did know one thing
It's me who's feeling strangeYes, everything is different
And I don't react well
The changes that come when
Your life's becoming hellThere's a place in this world
Where people like me are found by people like you
So find a place as this forever divineOh yeah, you're the best damn friend that I'll ever have
You'll always smile upon me when the season's bad
You'll always make me feel best even when I'm blue
You'll always smile upon me and I'll smile upon you tooThere's a place in this world
Where people like me are found by people like you
So find a place as this forever divineOh yeah, you're the best damn friend that I'll ever have
You'll always smile upon me when the season's bad
You'll always make me feel best even when I'm blue
You'll always smile upon me and I'll smile upon you too
