

Dear John

James

So long
Our lives entwined like a Helix
Don't know where I begin, where you end
How long do we go on trying to Phoenix I just know, I just know. that this can't growI wrote this song to tell
you I'm leaving
Afraid to say these words to your face
Must be better than a letter, a text or an email
My ride stops here at the end of the lineWe stopped time
When we signed
In the year
Of our Lord
1999
With a kiss
Spitting out, spitting out timelines
From the moment we locked eyes at the station
Our hours got synchronized
Two reduced to one life
Forever provokes Waits like a landmineI wrote this song to tell you I'm leaving
Afraid to say these words to your face
Must be better than a letter, a text or an email
My ride stops here at the end of the line
