I Wanna Talk 2 U

John Cale

Head to the city, on the night
I felt that something's wrong
Buildings were empty, lights were on
And we were running, lostI heard you whisper in my ear
That you were coming back this year
Looking to make an exception this time
We know it's coming downHey, wake up, I wanna talk to you
Hey, wake up, I wanna talk to youTaking me down from anything else
You meant to help me out
Bending the signs, the sounds around
In one unholy messIf it was subtle, it was wrong
It's very clear, but not for longHey, wake up, I wanna talk to you
Hey, wake up, I wanna talk to youIt felt like we were undecided
There's plenty left to say
But the combination sounded wrong againHey, wake up, I wanna talk to you
Hey, wake up, I wanna talk to you
Hey, wake up, I wanna talk to you
Hey, wake up, I wanna talk to you
Hey, wake up, I wanna talk to you
Hey, wake up, I wanna talk to you
