

Run Around

Chuck Berry

Lord knows that I love you
Why can't we get along?
Lord knows that I love you
Why can't we get along?
You don't have to run around
Doin' things you know is wrong I'll do anything in this world to please you
But I won't let you run around
I'll do anything to please you darlin'
But I won't let you run around
Last time I held on to you
This time I might put you down So long, so long baby
There's no future for me and you
So long pretty baby
No future for me and you
I love you too much to let you
Run around the way you do
