

# Wonder 2

## My Bloody Valentine

I'm moving your eyes slow for you see, see all the way  
And I found you something to hold you alive  
Somewhere you stand on worry too unfortunate  
Will you sing on to come to use on I'm moving your eyes slow for you see, see all the way  
And I found you something to hold you alive into the head on  
Remember you used to, you were always late to see tomorrow  
Everyone knows that you're such too soon
