To Mandate Heaven

Poison the Well

I know very, very well the rain falls, falls in drops
I know very, very well the rain falls, falls in dropsWinds call me, as rain falls in drops, I drop my head
I'm ashamed and tempted to say
My heart has caught up to me
But still these words hold my hand, but still these words hold my handPlease stay a while longer
I don't want to be alone
Please stay a while longer
I don't want to be alonePlease stay a while longer
I don't want to be alone
Please stay a while longer
I don't want to be aloneTo see in your eyes is to stare in clear skies
Clouds don't trail me anymore
