

All About Us

TEEN

It wasn't all about us
It was only about you and me this one time
It doesn't matter about our fuss
Just give it back, back to me this one night
It wasn't all about us
It was only about you and me this one time
It doesn't matter what it's just
Cause you keep it for yourself after love fight Honey, what you talking 'bout?
Swimming in waters no name, but approval
He took the easy way
Go side you do nothing??? away
She's using all that fuss
Against the kind of talking and joking
And for the streams
He fit the easy way
And run away, and run away
It wasn't all about us
It was only about you and me this one time
It doesn't matter about our fuss
Just give it back, back to me this one night
It wasn't all about us
It was only about you and me this one time
It doesn't matter what it's just
Cause you keep it for yourself after love fight You saw trouble so shy
You couldn't be that kind of guy
Actually singing along
To the, our romance song
You deny your participation
Played it all on me
All lack of confidence and sexuality
You saw trouble so shy
You couldn't be that kind of guy
It wasn't all about us
It was only about you and me this one time
It doesn't matter about our fuss
Just give it back, back to me this one night
It wasn't all about us
It was only about you and me this one time
It doesn't matter what it's just

~Cause you keep it for yourself after love fight

It wasn't all about us

It wasn't all about us
