Nite

Sarah Claire

[Verse 1]
I fly above the skies now
My body feels weightless
Donâ€™t you feel weightless (ye-ea-ah)
So high we can't come down now
My body feels weightless
Donâ€™t you feel weightless (ye-ea-ah)

[Hook]
Here comes the night
Open your mind

[Chorus]
The night
Here comes the night (x7)

[Verse 2]
We're here, oh universe child
My mind feels weightless
Donâ€™t you feel weightless (ye-ea-ah)
As one, we are aligned now
My mind feels weightless
Donâ€™t you feel weightless (ye-ea-ah)

[Hook + Chorus]

[Bridge]
I feel now
I feel now
I feel now
I feel now

[Chorus]

[Outro]
I fly, up above the skies now, skies now, skies now
I fly, up above the skies now, skies now, skies now
I fly above the skies now, skies now, skies now
I fly above the skies now, skies now, skies now
