

Kicker

[Alex G](#)

White bird in a black cloud
You flept, eyes rolled back
Medicine gave you a heart attack
Big flight for a small [??]
First flight into white light
Pull the trigger love at first flight
Big plan for a big man
Tough change for a tough guy
Teaching out the corner of your eye
White bird in a black cloud
Rain comin' down, thinking hey
maybe we should turn this boat around
Heaven - maybe freedom
What's the word? Right, I forgot
Quiet is the closest thing we got
