FEAR WAS BORN TO BE YOUR FRIEND

NAMBA69

Looking for the sky Do you know how to fly Are you as free as a bird
Looking for a sign of life Waiting for the sky You don't know when to fly
Now you are locked in a cage Wishing to get to the bait Open up the cage
Do you know where you are Now you're in another cage Shining stars are gone too far
Open up your eyes You don't know where to fly Now you are back in a cage Waiting to get to bait again Fear was born to be your friend
Fear is a lie Makes you never want to fly again
