That's When I'll Be Gone

2Gether

Oh, hey, yaa
Mamma, oh, oh oh ohGirl, you don't think really know me
But you're afraid to trust me
Stop doubting my intentions
Why? Why don't you believe me?
There must be something that you don't wanna mentionI said I shouted from the mountain top
My never ending love, that's what you've gotWhen the sun don't shine and the moon won't glow
When the rain don't fall, when the wind don't blow
When the earth won't spin and you're standing still
That's when I'll be goneI ain't going nowhere, not if you won't be there
I ain't going nowhere without youYou, you're my inspiration, my only motivation
I have, I never needed
Dreams, you know, I doubt I'll be there
You and me foreverLet me just repeat it
I told you, you can always count on me
What can I do to get your mind at meWhen the sun don't shine and the moon won't glow
When the rain don't fall, when the wind don't blow
When the earth won't spin and you're standing still
That's when I'll be goneWhen the rivers dry and the oceans part or pond
(Oceans part or pond)
When there's not one fear in a single heart
(Single heart)
And that's when I'll stop, stop loving you
That's when I'll be goneI ain't going nowhere, not if you won't be there
I ain't going nowhere without youWhen the stars disappear
That's when I won't be near or there
I knew the day I saw you, I'll always be there for you
Make no mistake and or baby, that's when love is hereOh, oh, woo, yeah yeah yeahWhen the sun don't shine and the moon won't glow
When the rain don't fall, when the wind don't blow
When the earth won't spin and you're standing still
That's when I'll be gone
(That's when I'll be gone)I ain't going nowhere, not if you won't be there
I ain't going nowhere without youWhen the rivers dry and the oceans part or pond
(Oceans part or pond)
When there's not one fear in a single heart
(Single heart)
And that's when I'll stop, stop loving you
That's when I'll be gone
