

# Less

**APB**

I could give you more  
 But you still wouldn't be happy  
 I could give all you need  
 But you still wouldn't be satisfied  
 I could give to our poor  
 Now what good would that be?  
 You'd shake hands with Jesus  
 And you still would not believe  
 If you're, happy with nothing  
 You'll be so very, happy with me  
 The less you expect  
 The more you'll be pleased  
 The more you'll be pleased  
 I could change your mind  
 But what would you really be thinking?  
 I'd show you a sign  
 But you'd just pass it on by  
 I could hold your hand  
 But then we'd both be sinking  
 The problem with the world  
 Is everyone's not just like you  
 If you're happy with nothing  
 You'll be so very, happy with me  
 The less you expect  
 The more you'll be pleased  
 The more you'll be pleased  
 If you're happy with nothing  
 You'll be so very happy with me  
 If you're happy with nothing  
 You'll be so very, happy with me  
 If you're happy with nothing  
 You'll be so very, happy with me  
 If you're happy with nothing  
 You'll be so very, happy with me  
 If you're happy with nothing  
 You'll be so very, happy with me  
 So happy with nothing

So happy with me
