I'm OK

Stan Getz

I couldn't catch my breath
and you hadn't seen me yet
I turn to hide
I caught your eye

Your face had that telling look
reading me like a book
A rare mystery
Blown in the breeze
And my face smiles
but inside Im a mess
and I can't find the words

I'm OK
I'm OK
Just as long as you stay
far away from me baby
we so yesterday
So don't say that you'll love me tomorrow
If you don't today

The sound of your voice, too soon
opens my deepest wound
as you move toward me
beneath October leaves

I know just what you'll say
and your still ten feet away
We've been here before
walked through this door

and with every footstep
I feel your love pull me in

I'm OK
I'm OK
Just as long as you stay
far away from me baby
we so yesterday
So don't say that you'll love me tomorrow

If you don't today

Oh, Just when I think that
I'm alright
I dig deep inside for the strength
to say right to your face

I'm OK
I'm OK
Just as long as you stay
far away from me baby
we so yesterday
So don't say that you'll love me tomorrow
If you don't today

So don't say, So don't say
don't you dare play this game
you can turn right around
and keep walking away
don't tell me you'll love me tomorrow
if you don't today

if you don't today
if you don't today
