If Love Was Enough

Graham Colton

There was a time, there was a place
You had a smile on your face
And everything we are is innocent
Ill go back againI touched your hand the day we met
It's just some things you dont forget
You standing in your dress without your shoes
Thats how I remember youIf love was enough Id wrap it around you
If love was enough to make you stay
If love was enough it would surround you
If love was enough for youThere was a road we never took
But through my eyes see how it looks
It was everything I know, we could've been
Yet I, I cant go back againIf love was enough Id wrap it around you
If love was enough to make you stay
If love was enough it would surround you
If love was enough for youIt's never enough for you
So Im giving you up
All the love in the world
It'll never be enough for youIf love was enough Id wrap it around you
If love was enough maybe youd stay
I still remember if love was enough
And you let it surround you
No, its never enoughIf love was enough Id wrap it all around you
If love was enough maybe youd stay
Youd still be here with meIf love was enough
It would always surround you
If love was enough for you
If love was enough for you
