

# A Train

Justine Skye

Riding on the A train,  
Got you stuck on my brain  
On my way to the city  
Wanna know what you do when with me  
Love on the wall like graffiti  
I know running from you ain't easy  
Gotta read between the lines  
~ÇEËœCause I need the noise, I need the loud  
I need the doors to shut you out!  
I need the people, I need it bad  
I need them all right now  
I need the noise, I need the loud  
I need the doors to shut you out!  
I need to breathe, I need to think  
Only way I'm gonna do it is on this A train!Ooh oh oh oh  
On the A train, yeah  
Ooh oh oh oh  
On the A train, yeah yeah yeah  
A train, riding on the A train!Lights on my daydream,  
Underground, yeah it's the remedy  
I could stay as long as I wanna  
Somehow there's a right in this remedy  
I love you but I need some time  
and the tracks just help me to clear my mind  
Don't take it personal,  
I just need a moment!  
~ÇEËœCause I need the noise, I need the loud  
I need the doors to shut you out!  
I need the people, I need it bad  
I need them all right now  
I need the noise, I need the loud  
I need the doors to shut you out!  
I need to breathe, I need to think  
Only way I'm gonna do it is on this A train!Ooh oh oh oh  
On the A train, yeah  
Ooh oh oh oh  
On the A train, yeah yeah yeah  
A train, riding on the A train!
