Forever Decay

The Devil Wears Prada

Still broken. I can't see anything but you. I don't even know if I want to.I've been so wrong in this. What does this mean? Where did it go? All is best, all is lost.
What does this mean? Where did it go? All is best, all is lost, all is gone.Forever in ruin, I can't just disappear.
Forever decay, I can't let go.
Forever in ruin, forever decay. I can't see anything but you. I can't let this go.Still searching. I might be missing you for years (for years).
Every month feels like a lifetime. When will this pass?
Goodnight, farewell, I'm nearly done with this day.
Goodnight, farewell, our grace has met its end.Forever in ruin, forever decay.
She fell in love with the city, and since then I don't mean anything.
She fell in love with the city, and since then I don't mean anything.
Forever in ruin, forever decay. Forever in ruin, forever decay.I've been so wrong in this. What does this mean? (What does this mean?)
Where did it go? (Where did it go?) All is best, all is lost.
What does this mean? Where did it go? All is best, all is lost, all is gone.
Forever in ruin, I can't just disappear. Forever decay, I can't let go.
Forever in ruin, forever decay. I can't see anything but you.
