

Though, it took me by surprise
 One by one, I realized
 There was somethin', I could do
 I lost my way, that's what she said
 Back to the 101
 If we don't know, somewhere to go
 Back to the 101
 I never said, to feel relaxed
 I never said, to love me back
 What was I next to you?
 And in my mind, it all goes black
 Lost control of what I had
 All my thoughts, left one by one
 I lost my way, that's what she said
 Back to the 101
 Back to the one, another one
 Back to the 101
 I count the one
 I count the one
 I count the 101
 I count the one
 I count the one
 I count the 101
 I know
 (I count the one)
 I lost
 (I count the one)
 My way
 (I count the 101)
 This time
 (I count the one)
 We'll find
 (I count the one)
 A place
 (I count the 101)
 I know
 (I count the one)
 I lost
 (I count the one)

My way
(I count the 101)
This time
(I count the one)
We'll find
(I count the one)
A place
(I count the 101)
