

She Fell Asleep (ft. Lil Tracy & Cold Hart)

GOTHBOICLIQUE

[Verse 1: Lil Tracy]

Love is work, baby I am so drained
In the club in the back
Where I'm gonna post up
Looking at the door thinkin
What would I do, what would I do if you walked through?
Blood on my hand as I took your heart
Bitch I'm Lil Tracy with an ice cold heart
GothBoiClique baby everything Black
Blackened [?]
And my belt does match
Do you love me like the way I love you?
Do you trust me like the way I trust you?
He can't touch you like the way I touch you
Lil Gem stone put a spell on you
Witch tribe baby will you chant for me
Play the music loud baby dance for me
Imma stay awake baby fall asleep
Fall asleep on some black sheets

[Bridge: Cold Hart]

On some all black sheets
Yeah she fell asleep
Oh
Cold Hart
Goth Boi Clique yeah

[Verse 2: Cold Hart]

I love my drug got me feelin so numb
Baby take this out it under your tongue
Finna pull up to the back of the club
Cause I don't really wanna see no one
Except you, yeah it's true
GBC, I'd die for you
Wake up fazed, don't ride for me
Lil Tracy getting high with me
Do you love me like the way I love you?
They don't really know what we've been through

Kiss my through the phone when I miss you
Pull up to your house in the two door coupe
I'm outside of your window with my radio on
Will you let me in or should I just go?
