

# This Is Not Goodbye

Johnny Reid

I left my hometown  
Years ago when the call of the highway found me  
Tonight I slowed down  
Long enough to let all this love surround me  
This road that I'm on is still unwinding  
Somewhere beyond the horizon  
This is not good=bye or the end  
Let me tell you my friend  
I'll keep you forever in my heart  
Till I see you again  
May our song never end  
Till then remember this is not goodbye  
This life that I lead  
Has always been a dream worthwhile chasing  
A night like tonight  
Made my next breath worth the taking  
This road that I'm on is still unwinding  
Somewhere beyond the horizon  
This is not good=bye or the end  
Let me tell you my friend  
  
I'll keep you forever in my heart  
Till I see you again  
May our song never end  
Till then remember this is not goodbye (no no no)  
This is not good=bye or the end  
Let me tell you my friend  
I'll keep you forever in my heart  
Till I see you again  
May our song never end  
Till then remember this is not goodbye  
This is not good=bye or the end  
Let me tell you my friend  
I'll keep you forever in my heart  
Till I see you again  
May our song never end  
Till then remember this is not goodbye  
This is not good=bye or the end  
Let me tell you my friend

I'll keep you forever in my heart  
Till I see you again  
May our song never end  
Till then remember this is not goodbye
