

Someone Like You

Sway Penala

I don't wanna play make believe, sugar
I just wanna get you alone.
No it ain't how it seems, but the noise makes it hard to think
and I'm not ready to tell you goodnight.
Tell me what's your favorite color
Keep on talkin'™, let me guess where you're from
Has anyone ever said you look like an angel?
Yes it's stupid, but it got you to smile

Could you give me till sunrise to prove
that the one thing I'm missing is you?

I'll be careful with your heart
If you're careful with mine too
I'll be waiting for a start, perfect and new
I'll be gentle with my words
Ain't gonna act like I'm cool
I've been looking for someone like you

I didn't mean to come on too strong
I just couldn't help what I feel
And I know if we stop
any chance for us is good as gone and I might never ever see you again

If it takes till sunrise believe
that all of your tears end with me

I'll be careful with your heart
If you're careful with mine too
I'll be waiting for a start, so perfect like you
I'll be gentle with my words
Ain't gonna act like I'm cool
I've been looking for someone like for someone like you

You don't have to worry 'bout how it all ends
All that matters is how it begins
And I promise baby, I promise that I got you baby
And forever just might start tonight

I'll be careful with your heart

If you're careful with mine too
I'll be waiting for a start, baby perfect and new
I'll be gentle with my words
Ain't gonna act like I'm cool
I've been looking for someone like you
