

# Strain vs. Resistance

## Fear Factory

Strain, strain, strain, you can resist the  
Strain, strain, strain, you can resist the  
A gun in hand can make you believe  
In everything that's meant to deceive  
A trigger and an eye for disease  
Conditioned to resist the machine  
I'm not afraid to live this way  
I'm not afraid to live this way  
I lived through pain  
Resisted all the strain  
Conditioned to believe in nothing  
Now, now, that I can see  
The truth behind the deceit  
Nothing now can ever stop me  
Never stop me  
Strain, strain, strain, you can resist the  
Strain, strain, strain, you can resist the  
Elusive, I am so hard to trace  
A slap of fear across your face  
A weapon to cleanse this waste  
To overcome this gut-wrenching place  
I'm not afraid to live this way  
I'm not afraid to live this way  
I lived through pain  
Resisted all the strain  
Conditioned to believe in nothing  
Now, now, that I can see  
The truth behind the deceit  
Nothing now can ever stop me  
Never stop me  
I lived through pain  
Resisted all the strain  
Conditioned to believe in nothing  
Now, now, that I can see  
The truth behind the deceit  
Nothing now can ever stop me  
Ever stop me, ever stop me, ever stop me  
Never stop me  
Strain, strain, strain, you can resist the  
Strain, strain, strain, you can resist the  
Strain, you can resist the  
Strain, you can resist the strain
