

# Slowly Freaking Out

Skylar Grey

Every day is one more inch of a slow blade sinking in.  
Vision fading, suffocating inside my own skin. And I'm fighting a stranger in my eyes  
And I know that only one of us will survive  
If I can't save us I've got to save myself. I can't stay here in this place,  
I'm slowly freaking out, I'm slowly freaking out.  
I can't breathe  
You're addicting.  
I'm slowly freaking out, I'm slowly freaking out  
And out and out again. Enigmatic, stuck like static  
This feeling I can't shake.  
But just remember that I warned you  
My will can never break. And I'm fighting a stranger in my eyes  
And I know that only one of us will survive  
If I can't save us I've got to save myself. I can't stay here in this place,  
I'm slowly freaking out, I'm slowly freaking out.  
I can't breathe  
You're addicting.  
I'm slowly freaking out, I'm slowly freaking out  
And out and out again. I can't stay here in this place,  
I'm slowly freaking out, I'm slowly freaking out.  
I can't stay in this place,  
I can't breathe.  
I can't breathe, you're addicting.  
I'm slowly freaking out, I'm slowly freaking out  
And out and out again.
