Everybody Wants Ya

S Club 7

I get this feeling as you walk away
A million hearts will break in two
But they don't know the games that you can play
So they will always follow youEvery time you move, everybody grooves
I can't help thinking it's alright, alright
You just gotta walk, see the people talk
I like to watch you party'Cause everybody wants ya
When everybody sees ya
The world is full of dreamers
But I'm a great believer
And I'm no fool, 'cause I got youI see the way you act like you don't know
There's something 'bout your attitude
And it don't matter how far you go
'Cause I'm the one that's going home with youYou just gotta bump, see the people jump
I can't help thinking it's alright, alright
When you do your thing everybody swings
They like to watch you party'Cause everybody wants ya
When everybody sees ya
The world is full of dreamers
But I'm a great believer
And I'm no fool, 'cause I got youI just wind you up and let you go
And I watch you in wonder
To see the look upon your face
I'd say you already know'Cause everybody wants ya
When everybody sees ya
The world is full of dreamers
But I'm a great believer'Cause everybody wants ya
When everybody sees ya
The world is full of dreamers
But I'm a great believer
And I'm no fool, 'cause I got you
