

Sway Your Head

We Shot the Moon

Sway your head, move your feet, wake yourself from the sleep
If there's a day, there's a way you can get yourself there
Golden smile, you got style that they can't take away
Scream and shout, get it out before it swallows you
No surprise in these times how it really gets through
All the walks and the thoughts but can you break through? You're alive, so alive
Now c'mon You gotta pull yourself back together
Give it one more shot, it's now or never
With the new day calling for you
You gotta believe, woah Build a plan, yes you can, you got nothing to lose
Look around, up and down, what are you gonna choose?
Can you see the sunrise that came up for you? You're alive, so alive
Now c'mon You gotta pull yourself back together
Give it one more shot, it's now or never
With the new day calling for you
You gotta believe, woah You gotta pull yourself back in the water
Take in one deep breath, you're getting closer
After all you've talked and seen
You gotta believe, woah I think it's coming back, I think it's coming back
I think it's coming back to me
I think it's coming back, I think it's coming back
I think it's coming back to me Now I, I feel I'm getting better
Now I, my world is getting better You gotta pull yourself back together
Give it one more shot, it's now or never
With the new day calling for you
You gotta believe, woah You gotta pull yourself back in the water
Take in one deep breath, you're getting closer
After all you've talked and seen
You gotta believe, woah
