

# Thunderbolt

Bryan Adams

Like a thunderbolt, comin' straight down from the sky  
Like a thunderbolt, don't it make you wonder why?  
Like nothin' you could imagine  
A shiver lookin' for a spine Hold onto the throttle, capture lightnin' in a bottle  
Let's lay it all on the line  
Like a thunderbolt, a shot right out of the blue  
Like a thunderbolt Tell me what you gonna do about it  
Like manna from the heavens  
The sweetest grape on the vine  
Gotta risk it for the biscuit, and I don't wanna miss it  
If it's meant to be, it's worth a try Yeah, like a thunderbolt, comin' straight down from the sky  
Like a thunderbolt, don't it make you wonder why?  
Thunder, straight down from the sky  
Thunder, make you wonder why  
Thunder, right out of the blue  
Thunder, oh whatcha gonna do? Like a thunderbolt  
Yeah, like a thunderbolt, comin' straight down from the sky  
Like a thunderbolt, don't it make you wonder why?  
Hit me like a thunderbolt A shot right out of the blue  
Hit me like a thunderbolt  
Tell me what you gonna do about it, like a thunderbolt
