

# Flesh and Blood

## Rage

[Music: Victor Smolski]

[Lyrics: Peavy Wagner] You turned away from me to be with someone else  
You turned away but from inside you are here  
Still you didn't give me what I need the most  
I am half, it feels not right and I fear Coming back, you started building up myself  
Face to face, man and machine come alive  
But mortality will be the price to pay  
It's a circle with an end to arrive Can't you see that I'm dead from inside  
Won't you help me be alive You, give me flesh and blood  
I wanna know the feeling in my veins  
You, give me flesh and blood  
I wanna know the feel of flesh and blood Can't you see I'm burning from inside  
I just need to be alive You, give me flesh and blood  
I wanna know the feeling in my veins  
You, give me flesh and blood  
I wanna know the feel of flesh and blood You turned away from me to be with someone else  
You turned away but from inside you are here  
Now you gave me what I need to be alive  
On my mission in the night you are here  
You are here
