

# Clever

## flameheart

Crush my only nerve  
Overstate what you deserve  
Crawling on the floor  
One can see under the door  
You're so clever, you never  
Said we would last forever  
I twist it, I missed it  
Can't keep this thing together  
Said hey, no way  
Can't deal with this today  
Yes I guess you're so clever  
Crack your ready whip  
Gentlemen shoot from the hip  
Throw my fears away  
I can't afford them anyway  
You're so clever, you never  
Said we would last forever  
I twist it, I missed it  
Can't keep this thing together  
Said hey, no way  
Can't deal with this today  
Yes I guess you're so clever  
You're so clever, you never  
Said we would last forever  
I twist it, I missed it  
Can't keep this thing together  
Said hey, no way  
Can't deal with this today  
Yes I guess you're so clever
