

# Souvenirs

## Lyre le temps

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs

Sometimes it happens like that you loose a friend  
Someone that's really close  
And I can tell you how much we were close  
Something you've never ever seen before  
But all the joyful moments that were spent  
Together a thousand miles driven it lasts  
Forever I can smile now  
I remember what a smile, I hope you do  
Sometimes it's bitter like that  
Don't care enough  
We do it fast but now it's done  
For you and me now the problem now it's done  
What could you do  
Tell me what could you do  
Sometimes it feels like that you loose a friend  
A brother forever  
You can always remember 'cause it's in you  
And I will always remember 'cause it's in me

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs

Sometimes it burns and like that it turns to ashes

It leaves you fighting with your fold??  
'Cause the boss of us know is that the ???  
I think you do  
Sometimes it ends and like that you loose a part  
A part of your soul  
There was one for me and you  
I can see your part in me

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs

Sit down, I'm looking at your picture  
Feels like, you're far away from me  
Maybe, you're close maybe you're high up  
But, I won't forget our souvenirs
