## Keeno

If I could find the time to speak  
I'd try to find a thousands way  
To prove you wrong  
Falling on my faceI'm chasing all the lines of your skin  
And all your pirouette mistakes  
So dance, until you're brand new  
Ignore the fight inside that scares youLook before you end it all  
Look before you shut your eyes  
For the last timeThere's no more room to go back down  
Your picture trends in black and white  
I will show you what it's likeLet them say all that they want  
I'll wipe away your painted wings till your heroes come  
If you doubt it'll look so new  
Oh, then the venom in your eyes will control youWell, I hate pouring my heart out  
When it's fading fast  
And streaming down your legLook before you end it all  
Look before you shut your eyes  
For the last timeThere's no more room to go back down  
Your picture trends in black and white  
I will show you what it's likeShe whispers in his ear, don't hurt me  
Don't forget me, don't hurt me  
I'm still not properly togetherLook before you end it all  
Look before you shut your eyes  
For the last timeThere's no more room to go back down  
Will you fight for me and not back down?  
Your picture trends in black and white  
I will show you what it's likeYour picture trends in black and white  
I will show you what it's likeI can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me  
I am right here and I'm waitingI can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me  
I am right here and I'm waitingI can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me  
I am right here and I'm waitingI can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me

I am right here and I'm waiting I can see you but you can't see me  
I am right here and I'm waiting I am right here and I'm waiting  
I am right here and I'm waiting  
Goodnight
