

# Slow Love

## Prince

Young is the night  
It feels so right  
Now that you're mine  
Let's take our time  
The man in the moon is smiling  
For he knows what I'm dreaming of  
Tonight is the night for making slow loveThe gentle breeze  
It blows with ease  
Let's make it slow  
Just like the wind blowsLet's make it last forever  
For a hundred times won't be enough  
Tonight is the night for making slow loveSlow love  
So much better when we take it easy  
Slow love  
So much better when we take our timeLove's in your eyes (in your eyes)  
Eyes never lie  
Don't rush the feelin'  
You've got me reelin'You can see through race car drivers  
Let me show you what I'm made of  
Tonight is the night for making slow love[Repeats]  
Slow love  
So much better when we take it easy  
Slow love  
So much better when we take our time
