Ain't Dead Yet

Eclipse

Took a bullet with my name
Walk right through a burning flame
It left me with a scar
I have seen the other side
But I'm here I'm still alive
And blood runs through my veins

Every bones has been broken I've been on the edge
There is no pain that I haven't felt
I've faced all my demons know all kinds of hell
My candles been burned at both ends
Ain't dead yet, Looked at devil in his eyes

This is where I'm coming from
All these shits have made me strong
I don't break easily
So hit me with your hardest shot
Bring it on that all you got
Be sure to make it real

Every bones has been broken I've been on the edge
There is no pain that I haven't felt
I've faced all my demons know all kinds of hell
My candles been burned at both ends
Ain't dead yet, Looked at devil in his eyes
So just bring it on make it hard, make it strong
Ain't dead yet

(Lead)

Every bones has been broken I've been on the edge
There is no pain that I haven't felt
I've faced all my demons know all kinds of hell
My candles been burned at both ends
Ain't dead yet, Looked at devil in his eyes
Ain't dead yet, without a shadow of a doubt
I said bring it on, make it hard, make it strong
Ain't dead yet
Ain't dead yet.
