

His Gorgeousness

The Shoe

All their horses pretty
All them look the same all the pretty men walking
walking down the lane all the lovers fight
for those lovely saves all my life trying
trying to say your name in vain
in vain his gorgeousness surrounds me
but i thought i was insane
to keep walking down the same streets
calling out his name in vain
in vain all those pretty people
all those pretty sayings
love never looked so good as when
as when you looked my way and all their love
and all their trying
and all their pretty thoughts
and all the things there hiding
and all those double meanings
and all those double days
and all those dog dying in vain
in vain
in vain his gorgeousness surrounds me
but i thought i was insane
to keep walking down the same streets
calling out his name his gorgeousness surrounds me
and love said i was insane
to keep walking down the same streets
calling out his name in vain
in vain
