

Forever Darkness

Darkseed

In the fire of the sunken sun
fast as ravens, bullets, thoughts I run
 I inhale the golden oil
 and I fear forever darkness
 Nights come, bringing snow
 Forever darkness in my soul
 Black, cold days will never cease
 when the ground shakes and the light falls
 Look into Your heart
 Do You see the ruins of what we felt before?
 Look into Your heart
 Forever darkness in my soul
 Do You see the ruins of what we felt before?
 Look into Your heart
 Do You feel it?
 Do You see the ruines
 of what we felt before?
 Sickening lives the fallen man
 This is our world
 Here the snake gets her poison
 to kill innocense in paradise
 Lies come, spirit's gone
 devil's might has won
 Black cold days will never cease
 when the ground shakes and the light falls
