

# Move the Chains

## Ashes of Ares

The veiled enslavers of this world have got you in their grasp  
They'll think you're easy prey, until they're called to task  
Treachery to God and man, deceivers never cease  
To bend your will for their ends,  
Their power... your disease  
(Your disease)Entrenched in battle since it all began, insanity  
To what end. What's it for... is it hate... or is it greed?  
Time will come to break these chains and move into the light  
Before that time, we must awake and stand for what is right  
All rise, children of earth, freedom calls your name  
If we're to survive, and turn the bloody tide  
We've got to move the chainsTime will tell if we can win this war on true deceit  
If ever was a time to fear, you must believe  
Time will come to break these chains and move into the light  
Before that time, we must awake and stand for what is right  
We've got to move the chains  
Time will come to break these chains and move into the light  
Before that time, we must awake and stand for what is right  
All rise, children of earth, freedom calls your name  
If we're to survive, and turn the bloody tide  
We've got to move the chainsAll rise, children of earth, freedom calls your name  
If we're to survive, and turn the bloody tide  
We've got to move the chains
