Afterglow

Child Ivory

From way up here I can see the heavens
Majesty if you could be where I've been
I don't know why I try

Milky white, Orion right in my view
Golden Thread, I thought I'd never find you
I don't know why I cried walking home late that night

Where did you go?
Afterglow

If I were young then I could understand it
But I can feel, I know it's real, you planned it
I don't know why it hurts when I've seen so much worse

No one wants to think or talk about it
But I can't let it go now that I found it
I don't know why it's hard, you didn't break my heart
