

# Take the Right One

## Bombay Bicycle Club

Go on my gun  
stop you and carry on  
You haven't been there  
time to sell the rose around  
she takes it now  
You give it up You'll steal this one, when all is over  
You'll go and you can, see all you gave her  
You'll flee the door, your eyes glowing  
She's there but you can't, keep on going Racing on  
ties it up and moves along  
You're waiting there  
came into the room and then  
You stare me down  
you turn around You'll steal this one, when all is over  
You'll go and you can, see all you gave her  
You'll flee the door, your eyes glowing  
She's there but you can't, keep on going x2
