Hard for the Heart

Duffy

I never chose to be poor for what's become of me,
Nor did I choose this faith,
I never thought life would be so hard to be,
I guess it is just my faith,
If these walls could comfort me
They would reassure I'm lost for so many years
If these walls could comfort me,
They would tell me I've been so lost for so many yearsI am looking for safety,
What is it all about
Won't somebody tell me,
Take away this doubtLife is a play and we all play a part,
But it often gets hard for the heart (2x)Hard for the heartWho ever thougth I would question mortality,
This given time and space
Who ever said we belong to society,
The only human race
If these walls could comfort me,
They would reassure I'm lost for so many ways
If these walls could talk to me,
They would telI me I've been so lost for so many waysI am looking for safety,
What is it all about
Won't somebody tell me
Take away this doubtLife is a play and we all play a part,
But is often gets hard for the heart.
