Where Was I?

Kenny Wayne Shepherd

Oh ho
Starin' out the window
An' watchin' the night turn into day
It's four in the mornin'
I got so many things I need to say
I've been out here in the darkness
With shadows all around
Oh, where was I before you came around?
Standin' in a phone booth
Lord I'm watchin' the rain fall down
Don't know where I'm goin'
Don't even know the name of this town
Of this town
I've been stranded in the spotlight
Like a king without a crown
Oh, where was I before you came around?
I was so lonely, I was on my own
I was driftin', no place to call home
Now I'm stronger
Where would I be?
Without you lovin' me, yea
I was lonely, on my own
I was driftin', no place to call home
Now I'm stronger
Where would I be?
Without you lovin' me
Oh, starin' out the window
I've heard you say it's gonna be alright
Alright
But these words from you girl
I can make it through another night
You give me someone to believe in
I was lost now I'm found
Oh, where was I before you came around?
You give me someone to believe in
I was lost now I'm found
Where was I before you came around?
