Never Stop Loving You

Dru Hill

You know I'll never stop wanting you
You know I'll never stop needing you
You know I'll never stop loving you
Without you I can?t do a thing
(Oh, no, no, no)
Girl, I wonder what went wrong, where we fell apart
From a love that was so strong
I wonder where our hearts got lost
Somewhere twisted and now
I?m trying to pull myself from off the ground
Girl, I just wanna know where, how and who are you loving now?
I need you now
We need to work it out somehow
'Cuz I can see a part of me
With you is where I need to be
I need to be
I wanna know why, where, who's
(You know I never stopped wanting you)
(You know I never stopped needing you)
Gonna love you if I'm gone
(You know I never stopped loving you)
And girl, I swear I'll hold on
'Cuz without you I can't do a thing
(You know I never stopped wanting you)
Where, who's gonna love you if I'm gone?
(You know I never stopped needing you)
(You know I never stopped loving you)
And girl, I swear I'll hold on
(Without you I can't do a thing)
Oh no, I'm puzzled, heart is slowly dying
'Cuz I don't know why I keep on trying when you're so cold
Why I keep on crying only Heaven knows
It's something deep inside I just can't let it go
And I'm about to lose my mind, girl, I can't sleep no more
Can't eat no more, girl, I'm falling down
This is all because we had a falling out
I never meant to go that route
Won't you pull me from the pain I feel inside
Enough to make the strongest man break down and cry?

Would you come and wipe these teardrops from my eyes?
Losing you is like losing my mind 'cuz I need you in my life
I wanna know why, where, who's
(You know I never stopped wanting you)
(You know I never stopped needing you)
Gonna love you if I'm gone?

(You know I never stopped loving you)
And girl, I swear I'll hold on
'Cuz without you I can't do a thing
(You know I never stopped wanting you)
Where, who's gonna love you if I'm gone?
(You know I never stopped needing you)
(You know I never stopped loving you)
And girl, I swear I'll hold on
(Without you I can't do a thing)
I'll hold on
I've loved you all my life
(All my life)
And I've learned sometimes make sacrifice
Do whatever it takes to make love turn around
You know I never stopped wanting you
(Oh yeah)
You know I never stopped needing you
(Oh yeah)
You know I never stopped loving you
(Oh yeah)
(No, no, no, no, no, no, no)
(Without you I can't do a thing)
You know I never stopped wanting you
(Oh no)
(Yeah)
You know I never stopped needing you
(Oh, oh)
You know I never stopped loving you
(Oh no, I'm begging you, I'm begging you)
Without you I can't do a thing
Baby, I can't live another day
([Incomprehensible])
Without you in my life won't be the same
(I'll never be the same, I'll never be the same)
What will I do?
(Can't take the pain)
What will I do?
(Won't be the same)

And what will I say?
(Girl, things have changed)
[Incomprehensible]Come back to me, come back to me, baby
Come back to me, come back to me, baby
Come back to me, come back to me, baby
